**Jens-Uwe Wunderlich, Meera Warriier : A Dictionary of Globalization** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Dictionary of Globalization:

0 of 0 people found the following review helpful. Better than anythingBy Alexander ZhebitPrimitive and very far from the subject. Please, see to it that a Dictionnaire de la Glozalisation. Paris: L.G.D.J, 2010 could be suggested for readers.

Globalization has become one of the most important topics within politics and economics. This new title explains some of the related terminology, summarizes the surrounding theories and examines the international organizations involved. With the proliferation of communications and the rise of the multi-national corporation, the concept of globalization is vitally important to the modern political environment. The structure of the modern economy, based on information production and diffusion, has made national boundaries largely irrelevant. A Dictionary of Globalization explains theories, philosophies and ideologies, and includes short biographies of leading activists, theorists and

thinkers such as Noam Chomsky, Karl Marx and Joseacute; Boveacute;. Concepts, issues and terms key to the understanding of globalization also have clear and concise definitions, including democracy, civil society, non-governmental organizations and ethnicity. Cross-referenced for ease of use, this title aims to be of great benefit to anyone studying politics or sociology. It will prove essential to public and academic libraries, as well as to businesses, government departments, embassies and journalists.
