From Asian Development Bank : ADB Annual Report 2010 (ADB Annual Reports) before purchasing it in order to gage whether or not it would be worth my time, and all praised ADB Annual Report 2010 (ADB Annual Reports):

The 2010 Annual Report of the Board of Directors to the Board of Governors of the Asian Development Bank (ADB) reviews ADB's operations, projects, internal administration, financial management and includes a separate report on the activities of the Special Funds of ADB. The report also contains chapters on regional, sectoral and thematic highlights. It also includes the complete financial statements and opinions of the independent auditors, a statistical annex, and appendixes.
