From Routledge : Agricultural Transformation in a Global History Perspective (Routledge Explorations in Economic History) before purchasing it in order to gage whether or not it would be worth my time, and all praised Agricultural Transformation in a Global History Perspective (Routledge Explorations in Economic History):

History teaches us that agricultural growth and development is necessary for achieving overall better living conditions in all societies. Although this process may seem homogenous when looked at from the outside, it is full of diversity within. This book captures this diversity by presenting eleven independent case studies ranging over time and space. By comparing outcomes, attempts are made to draw general conclusion and lessons about the agricultural transformation process.

About the Author Ellen Hillbom is Lecturer in the Department of Economic History, Lund University, Sweden
Patrick Svensson is Lecturer in the Department of Economic History, Lund University, Sweden
