this book. It has a lot of good ideas in it, don't get me wrong. Personally i just didn't like the book because it seemed to be more about the "Intern Queen" trying to sell her own brand and seemed show-offish. She talked about herself and her twitter stuff too much. I found it overbearing at some points in the book. The book does give a lot of useful tips, but most are common sense. The chapters were fairly interesting and the book will be useful if you are new to the job market and will help you with things you may not have thought about already. If your not fresh out of High School, this book offers very little as you have most likely experienced everything you will need for an interview and job. 1 of 1 people found the following review helpful.
