Zamir Iqbal, Abbas Mirakhor : An Introduction to Islamic Finance: Theory and Practice (Wiley Finance) before purchasing it in order to gauge whether or not it would be worth my time, and all praised An Introduction to Islamic Finance: Theory and Practice (Wiley Finance):

10 of 30 people found the following review helpful. Book Assessment By Sceptical Reader The book does not provide deep enough background on the origins and philosophy of so called Islamic banking, particularly since banking as we know it did not exist in the days of the Prophet. The extrapolation from financing camel caravans to managing mutual funds just stretches credibility. As for the modern part, it strives to give an Islamic gloss to what are purely Western

banking and financial concepts. All in all, a disappointing book

The first book to offer comprehensive coverage of Islamic finance and banking and its applications to the rest of the world, now fully revised and updated. The ongoing international financial crisis has reignited debate over the development of a risk-sharing financial system, such as that required in Shariah Law. *An Introduction to Islamic Finance: Theory and Practice, Second Edition* highlights the core principles of risk sharing in Islam, arguing that a risk-sharing financial system is exactly what we need to promote greater financial stability. Providing comprehensive coverage of the fundamental theory behind Islamic finance and banking, according to the core concepts of Shariah law, authors Zamir Iqbal and Abbas Mirakhor clearly explain the distinct features of an Islamic financial system and how it compares with traditional financial models. Addressing the myriad important developments that have taken place in recent years, this second edition looks to the future, addressing emerging issues sure to influence future developments in Islamic finance. Explores the unique features of an Islamic financial system, how they compare to more traditional financial systems, and how they could improve them. Discusses all the most recent developments and emerging issues in Islamic finance. Updated with the latest developments, trends, innovations, and statistics, this new edition features additional chapters on the financial crisis, globalization, non-bank financial institutions, and recent developments in Takaful (Islamic insurance). The first edition of *An Introduction to Islamic Finance* established the book as the market leader, and this newly revised and updated second edition incorporates the most recent developments in this booming financial sector, including financial stability, globalization, and non-banking financial institutions.
