William Bolton : Control Systems before purchasing it in order to gage whether or not it would be worth my time, and all praised Control Systems:

Working through this student-centred text readers will be brought up to speed with the modelling of control systems using Laplace, and given a solid grounding of the pivotal role of control systems across the spectrum of modern engineering. A clear, readable text is supported by numerous worked example and problems.* Key concepts and techniques introduced through applications* Introduces mathematical techniques without assuming prior knowledge*

Written for the latest vocational and undergraduate courses
