From Springer : Convergence or Divergence in Europe?: Growth and Business Cycles in France, Germany and Italy before purchasing it in order to gage whether or not it would be worth my time, and all praised Convergence or

Divergence in Europe?: Growth and Business Cycles in France, Germany and Italy:

Against the background of the introduction of the Euro in 1999, France, Germany and Italy have recently experienced higher divergence in terms of GDP growth. Based on a set of original papers produced by a team of economists from the three main National Central Banks of the Euro area this book analyses the latest developments in three important European economies in a broad perspective, using modern econometric techniques.
