Philip Garrahan, John Ritchie : East Asian Direct Investment in Britain (Studies in Asia Pacific Business) before purchasing it in order to gauge whether or not it would be worth my time, and all praised East Asian Direct Investment in Britain (Studies in Asia Pacific Business):

The contributions investigate indicators of change and the interaction with FDI from East Asia against the background of changes in the regional economy since the mid 1980s. They discuss in particular how the North tackled long-term decline and the long-term implications for the region.

'An excellent illustration of the different research methodologies used to examine the patterns of economic development and the processes of transformation and the manifold impacts of these upon the regional economy.' -
