Deming Chen : Economic Crisis and Rule Reconstruction before purchasing it in order to gage whether or not it would be worth my time, and all praised Economic Crisis and Rule Reconstruction:

The 2008 global economic crisis resulted in many new changes in global economic governance, multilateral trading system, the Group20 major economies, regional economic cooperation and other international governance platforms. Countries around the world have begun a complex battle to make sure rules are changed in their favor. Furthermore, rule reconstruction has a definite and profound impact on the international economic situation and national trade interests. This book by Former Chinese Minister of Commerce Chen Deming, aims to highlight the focal issues of the competition and negotiations with a panoramic depiction of the complicated state of international economic and trade

rule reconstruction. The chapters in the book discuss rules of global governance, reflect on the crisis rarely seen in the past century, and raise the proposition of rule reconstruction. They also focus on multilateral trading system, regional economic cooperation and related international financial rules. Detailed deliberations on various kinds of trade rules including rules of services trade, government procurement, intellectual property, investment, international development cooperation, etc are also dealt with. Lastly, the book provides an outlook on the path, direction and key issues of international economic rule reconstruction, and offers recommendations on China's engagement.
