**Donald DePamphilis : Mergers, Acquisitions, and Other Restructuring Activities: An Integrated Approach to Process, Tools, Cases, and Solutions (Academic Press Advanced Finance)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mergers, Acquisitions, and Other Restructuring Activities: An Integrated Approach to Process, Tools, Cases, and Solutions (Academic Press Advanced Finance):

5 of 5 people found the following review helpful. 5 stars for book's content; knocked off one star due to flaws in electronic versionBy 5to8This book's content is excellent, in my opinion. I will leave content reviews to others.My review is intended to warn potential buyers of a couple of flaws in the electronic versions (Kindle for Mac and Kindle for iPhone). They are not fatal flaws, but they do detract a little from the reading experience.Problem #1. Being a

finance textbook, it includes finance equations. On both the Mac and the iPhone, you must use the View Options tool to set the background to Black in order to read the formulas. If you set the background to Sepia or White, those equations render so poorly on screen, that they become unreadable. They look like a low-resolution scan of a scan. Broken, incomplete, moth-eaten. Timeworn, like something out of an ancient manuscript. In the Mac version, they are not separate images, so they can't be enlarged. In the iPhone version, enlargement is possible and actually exposes the underlying cause of the problem: the Kindle software superimposes a layer of lighter-color text on top of the equations' native black type, thereby making the final result so hard to interpret. I find myself needing to constantly toggle background colors between Sepia (easier on the eyes for general reading) and Black (to read formulas). To the editor: please either remove the added text layer, or convert the equations to type, in the same font as the remainder of the textbook. Problem #2. In the iPhone version, touching the footnote hyperlinks only seems to work in one direction: forward. In other words, touching a numbered footnote embedded in the text works as expected (it takes the reader to the linked footnote at the end of the chapter), but when the reader attempts to reverse direction and go back to the original reading point, it doesn't work -- the Kindle software merely moves a single page backward. Perhaps this problem is due to the fact that footnote text is left-aligned, instead of being indented. Since the footnote hyperlinks are so close to the left edge of the phone screen, it seems logical that the software would be unable to tell that the reader's finger is trying to touch a hyperlink, not trying to go back one page. To the editor: please try indenting footnote text to see whether this fixes the problem. 0 of 0 people found the following review helpful. Five Stars By Customer came on time, and new 1 of 1 people found the following review helpful. Five Stars By Thomas G Charlton Great book with practical information in addition to the academic information.

In the fifth edition of this well-known text, Dr. DePamphilis explains the real world of mergers, acquisitions, and restructuring based on his academic knowledge and personal experiences with over 30 such deals himself. Important enhancements unique to the fifth edition: all 99 cases involve real-life deals made or announced within the last five years, extensive discussions of all current valuation techniques and their strengths and weaknesses, cross-border transactions analyzed and explained in detail, tax and legal issues covered comprehensively. Focuses on the REAL WORLD, not just theory. The 99 case studies span every industry and dozens of countries and show how deals are done rather than just the theory behind them. All cases fully updated for this edition. Cases all involve transactions that have occurred or been announced within the past 3-5 years. Extensive updating and enhanced content provided on reorganization, bankruptcy, and liquidation issues both inside and outside of bankruptcy court

"This is a truly comprehensive text and does a wonderful job at supplying the underlying motives and theory as well as the critical "in practice" elements that many books lack. It spans all types of MA and restructuring transactions and covers all the relevant knowledge from the academic research to the practical legal, accounting, and regulatory details. The book is up-to-date and teaches the state of the art techniques used today. The book contains numerous cases and spreadsheet support that enables the reader to put into practice everything that is covered. The combination of great writing and active case learning make this book the best I have seen in the MA and restructuring arena." --Matthew T. Billett, Associate Professor of Finance, Henry B Tippie Research Fellow, University of Iowa "I am happy to recommend the 5th edition of Mergers, Acquisitions, and Other Restructuring Activities. Having used prior editions of Don DePamphilis' text, I can affirm that the newest edition builds on a firm foundation of coverage, real-world examples, and readability. My students have consistently responded favorably to prior editions of the book. In the newest edition, I was delighted to discover that Don is expanding his coverage of family-owned businesses, already a strength in his earlier editions that were distinguished by their coverage of the valuation of privately-held businesses. Additional attention is paid to restructuring, bankruptcy, and liquidation as well as risk management, which are clearly topics of interest to every business person in today's economic climate." --Kent Hickman, Professor of Finance, Gonzaga University, WA "This new edition is one of the most comprehensive books on mergers and acquisitions. The text combines theories, valuation models, and real-life cases to give business students an overall insight into the MA deal process. The up-to-date real-life examples and cases provide opp... About the Author Donald M. DePamphilis has a Ph.D. in economics from Harvard University and has managed more than 30 acquisitions, divestitures, joint ventures, minority investments, as well as licensing and supply agreements. He is Emeritus Clinical Professor of Finance at the College of Business Administration at Loyola Marymount University in Los Angeles. He has also taught mergers and acquisitions and corporate restructuring at the Graduate School of Management at the University of California, Irvine, and Chapman University to undergraduates, MBA, and Executive MBA students. He has published a number of articles on economic forecasting, business planning, and marketing. As Vice President of Electronic Commerce at Experian, Dr. DePamphilis managed the development of an award winning Web Site. He was also Vice President of Business Development at TRW Information Systems and Services, Director of Planning at TRW, and Chief Economist at National Steel Corporation.
