From Palgrave Macmillan : Methodology and Research Practice in Southeast Asian Studies before purchasing it in order to gauge whether or not it would be worth my time, and all praised Methodology and Research Practice in Southeast Asian Studies:

This book addresses the question of how to ground research practice in area-specific, yet globally entangled contexts such as 'Global Southeast Asia'. It offers a fruitful debate between various approaches to Southeast Asia Studies, while

taking into consideration the area-specific contexts of research practice cross-cutting methodological issues.

'This volume is a positive collective enterprise and calls scholars to bridge methodological and epistemological divides and build theoretical and empirical knowledge in order to keep the studies and expertise of Southeast Asia relevant and thriving in Social Science research.' - Contemporary South East Asia
About the Author
Chua Beng Huat, National University of Singapore, Singapore
Raul Cordenillo, KU Leuven and Antwerp University, Belgium
Goh Beng-Lan, National University of Singapore, Singapore
Eric Haanstad, University of Freiburg, Germany
Michaela Haug, University of Cologne, Germany
Sita Hidayah, Gadjah Mada University, Indonesia
Victor T. King, University of Leeds, UK
Krisztina Kis-Katos, University of Freiburg, Germany
Jarno S. Jian Hui Lang, University of Freiburg, Germany
Christian von Lüml; bke, Arnold Bergstraesser Institute, Germany
Emma Masterson, University of Freiburg, Germany
Paruedee Nguitragool, Chiang Mai University, Thailand
Kathryn Robinson, Australian National University, Australia
Gum; nther Schulze, Australian National University, Australia
Deasy Simandjuntak, University of Indonesia, Indonesia
York A. Wiese, University of Freiburg, Germany
