Teresa Holmes, Susan Cartwright : Mid-Life Career Change: Desire or Necessity? (Tudor Business Publishing) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mid-Life Career Change: Desire or Necessity? (Tudor Business Publishing):

Changing demographics and extended life expectancies, along with rapid change in the workplace, are challenging the traditional concept of "career for life". The text includes practical advice and information on how to decide on and plan a new career, on coping with stress and possible rejection and on handling interviews. It is not only suitable for those who are changing careers or returning to work, but also to personnel managers, human resource professionals, and career counsellors.
