**From Routledge :** Migration in the 21st Century: Rights, Outcomes, and Policy (Regions and Cities) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Migration in the 21st Century: Rights, Outcomes, and Policy (Regions and Cities):

In this volume, we examine the challenges and opportunities created by global migration at the start of the 21st century. Our focus extends beyond economic impact to questions of international law, human rights, and social and political incorporation. We examine immigrant outcomes and policy questions at the global, national, and local levels. Our primary purpose is to connect ethical, legal, and social science scholarship from a variety of disciplines in order to

raise questions and generate new insights regarding patterns of migration and the design of useful policy. While the book incorporates studies of the evolution of immigration law globally and over the very long term, as well as considerations of the magnitude and determinants of immigrant flows at the global level, it places particular emphasis on the growth of immigration to the United States in the 1990s and early 2000s and provides new insights on the complex relationships between federal and state politics and regulation, popular misconceptions about the economic and social impacts of immigration, and the status of 'undocumented' immigrants.

About the Author Thomas N. Maloney is Associate Professor in the Department of Economics at the University of Utah. Kim Korinek is Assistant Professor in the Department of Sociology at the University of Utah. Kim Korinek is an Assistant Professor in the Department of Sociology and an Assistant Investigator in the Institute of Public and International Affairs at the University of Utah.
