Tony Buzan, Chris Griffiths : Mind Maps for Business 2nd edn: Using the ultimate thinking tool to revolutionise how you work before purchasing it in order to gage whether or not it would be worth my time, and all praised Mind Maps for Business 2nd edn: Using the ultimate thinking tool to revolutionise how you work:

1 of 1 people found the following review helpful. Who moved my marker pen?By Willem VegterI read "The Ultimate Book of Mind Maps" printed book a couple of years ago and started using Mind Maps. It really helped me organising and putting things into perspective. The one thing that really bugged me was that I always had to carry a small bag of

coloured marker pens with me. To keep all the pens together was always a challenge, especially if everybody else also needs them! While reading the Kindle book it refers to Mind map software. I immediately bought the software and it really works very well. I am now able to share all my business mind maps with my colleagues. What I really like about the book is that it brings together all the various management techniques and methods and guide you how to use mind maps to maximise their effect. I strongly recommend this book to everybody that is looking to improve their business. This is an absolute no-brainer, using your mind map of course! 0 of 2 people found the following review helpful. Five Stars By LizA+1 of 4 people found the following review helpful. Two Stars By aikennothing new. the book is more to promote the new software.

Tony Buzan knows more than a little about Mind Maps – after all, he did invent them! Often referred to as the ‘the Swiss-army knife for the brain’, Mind Maps are a ground-breaking, note-taking and mind-organising technique that has already revolutionised the lives of many millions of people around the world and taken the educational world by storm. Now Tony Buzan is sharing the powerful techniques of mind mapping with the business world to help business professionals everywhere revolutionise the way they think and practise. Mind Maps for Business is the very first and only book on mind mapping that has been written by Tony Buzan specifically for a business audience. No matter how big or small the business you work in; no matter if you’re an employer or an employee; no matter what your role is, you’ll find the benefits of using mind maps to help you think, organise, plan and control are vast: Accelerate your productivity to levels you never thought possible. Generate exciting new possibilities for growth and expansion. Make meetings, discussions and forums really productive and useful. Negotiate, talk and consult more constructively and effectively. Be more focussed, more organised and much smarter. Unleash your amazing creative capabilities. Whether you’re writing marketing plans or strategy documents; looking for new ways to develop your business; planning a conference or event; restructuring your staff; or looking to improve your management and leadership skills – discover today the amazing advantages that using Mind Maps for Business can bring.
