Stoke your sensitivities By LOCMy Circle group chose to read this book as our Lenten study this year. An unconventional choice, since the book is not specifically about Lent. However, it is about recognizing our abundance and learning to recognize unusual and potent ways to walk on this earth in the attitude of Jesus. Of particular value was the recognition that we can give from our excess, assuming we actually can recognize our abundance. This requires differentiating between needs and wants. Furthermore, it requires a diligent effort to choose to fill our needs and not focus on our wants. An excellent book for any person or group whose desire is to be of service. I purchased copies for special friends and for the board of our Rotary Club. 1 of 1 people found the following review helpful. So glad I found this book! By Ruthie a. This book has impacted my life in such a way, it's amazing! It's taught me to live a simple life, to live on less so that I can give more. I didn't know how to do that and this was the perfect guide. Being a minimalist is by far, one of the best things I could do! Talk about the amount of money I save, the difference in lives that I make... I'm so glad I found this book! Thank you!

In *More or Less*, Jeff Shinabarger calls readers to create their own social experiments to answer the question, "What is enough?"

"Most of us have more than we need, which, as Shinabarger points out, means that everything else is excess. This audiobook offers stories, tools, and ideas for how to determine how much is enough and how you can share your excess for the betterment of your community. Kelly Ryan Dolan narrates at a quick pace, moving from topic to topic with ease. His enthusiasm matches the tenor of Shinabarger's message and gives energy to his ideas. Supplementary material, including PDF files on the audio CD and videos that can be accessed online, adds a visual aspect to Shinabarger's inspirational story. Verbal cues let the listener know when to refer to the Website and PDFs, but the reading also stands on its own for those who multitask while listening." — E.N. copy; AudioFile 2013, Portland, Maine
