From Routledge : Multinational Service Firms (RLE International Business) (Routledge Library Editions: International Business) before purchasing it in order to gage whether or not it would be worth my time, and all praised Multinational Service Firms (RLE International Business) (Routledge Library Editions: International Business):

This book presents a world survey of multinational firms in the key parts of the service sector. The service sector has grown greatly in importance in recent years in many countries of the world. Many of the key parts of the service sector that are growing most rapidly are dominated by large multinational firms and this has important implications for the future shape of the world economy and for closer economic integration between countries. In addition, the particular style and operations of multinational firms in one sector can provide useful lessons for multinational enterprise in other sectors. The book examines the operations and the style of the firms considered and explores how they dominate their sectors. It charts how the firms have developed, discusses the critical issues facing them; and suggests how present trends may continue in the future.
