Mark Casson : Multinationals and World Trade (Routledge Revivals): Vertical Integration and the Division of Labour in World Industries before purchasing it in order to gage whether or not it would be worth my time, and all praised Multinationals and World Trade (Routledge Revivals): Vertical Integration and the Division of Labour in World Industries:

First published in 1986, this work reports the results of the Leverhulme project on multinationals and intermediate product trade based at the University of Reading during the academic year 1982/3. Chapter 1 summarises the main results of this project. Part I focuses upon the theoretical component of world trade, dealing with both the theories of division of labour and vertical integration. Part II presents a number of specially-commissioned case studies relating to the project, concerning the motor industry, the bearing industry, the synthetic fibre industry, the tin industry, the copper industry, the banana industry and the shipping industry.
