**John H Dunning : Multinationals, Technology Competitiveness (RLE International Business) (Routledge Library Editions: International Business)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Multinationals, Technology Competitiveness (RLE International Business) (Routledge Library Editions: International Business):

This book explores some aspects of the interface between technology, competitiveness and the role of multinational enterprises in the world economy. This group of essays stresses the role of asset creation and usage, rather than reliance on natural factor endowments as a basis for national competitiveness and examines the role of multinational

enterprises as vehicles for technological transfer, and the efficient co-ordination of economic activity across national boundaries.
