Fabulous Tips!By Nancy EardleyI purchased this book for my son who is looking to change jobs, but only if he can find one that will pay him more than what he is currently making. As of this date, he

is "juggling" three different companies, trying to make a decision....the problem being is that they all are offering better pay than he has now. This is a book that actually tells you how to do it!3 of 3 people found the following review helpful. A Tale of Two Job HuntsBy dr stockThis book explains what so many are doing wrong in their job hunting. Actually what many job hunters do is basically stumble around blindfolded. Some difficult questions are answered here: What do I do if my work has become obsolete? How do I write a resume for an industry I have never worked in? I can't find any job openings that are a good fit, now what? Once the blindfold is removed readers will feel both relieved and empowered as their anxiety and despair are replaced by the hustle and bustle of an intelligent and effective job hunting campaign. Few people on the planet are as qualified as this author to write such a book. He has made a career out of helping people find good jobs. Readers will not find frivolous advice here but a comprehensive job hunting strategy that gets results. Highly recommended reading for the frustrated job seeker!

Multiple Job Offers in 10 Days will show you how to generate outrageous interest in you! Why hasn't anyone told you this before? Because it is hard! Written in plain English and peppered with interesting anecdotes, this book offers a completely unique approach to the entire job-search process.

WOW! This book really cuts to the meat and potatoes of the issue! After one reading, I was able to sit down and put it all together. I finally understand why looking for work has been so frustrating, and now I know what to do to make it work! --Reader review, .com Few people on the planet are as qualified as this author to write such a book.
