Ben Rosamond : New Regionalism in the Global Political Economy: Theories and Cases (Routledge Studies in Globalisation) before purchasing it in order to gage whether or not it would be worth my time, and all praised New Regionalism in the Global Political Economy: Theories and Cases (Routledge Studies in Globalisation):

Following the financial crisis at the end of the twentieth century, regionalisms in the global political economy have evolved in a number of ways. This informative book brings together the leading scholars in the field to provide cutting edge analyses of contemporary regions and regionalist projects. Providing an innovative integration of theoretical issues with sophisticated analyses of a wide range of international case studies, the chapters systematically consider

the relationship between globalization, financial crisis, and regional projects. In combination, the contributions to this volume provide the widest possible base within the literature for a truly comparative study of contemporary regionalism.

About the Author Shaun Breslin is reader in Politics and Principal Research Fellow in the Centre for the Study of Globalisation and Regionalisation at the University of Warwick. Christopher W. Hughes is Senior Research Fellow, Centre for the Study of Globalisation and Regionalisation, University of Warwick. Nicola Phillips is Lecturer in Politics and International Studies at the University of Warwick. Ben Rosamond is Senior Lecturer in Politics and International Studies at Warwick.
