Anne Litwin : New Rules for Women: Revolutionizing the Way Women Work Together before purchasing it in order to gauge whether or not it would be worth my time, and all praised New Rules for Women: Revolutionizing the Way Women Work Together:

1 of 1 people found the following review helpful. She nailed it!By Dr. KKAne nailed it! She helps women see the water we swim in and take for granted in the workplace. Then she shows the system issues that set us up for disappointment and confusion.As a fellow Organization Development consultant, her strategies for individual and

organizational change are relevant and specific. As a researcher on women's development, I see her work fits in a feminist and diversity/inclusion frame. As an author, I am impressed with the accessibility of her case examples and her transparency. As a coach, I will happily refer this book to friends and clients. Thank you, Anne, for your generosity, enthusiasm, and insights. 1 of 1 people found the following review helpful. This book shares sharp, research-based insights with practical, ...By Sally S Colella This book shares sharp, research-based insights with practical, real world stories and suggestions. It is highly rigorous and cross-cultural while being personal and applicable for day-to-day working life. I have been a leadership coach and educator for more than 25 years and an avid follower of the latest writing on women and leadership. This book surprised me by sharing new information that completely resonates with my experience and practical suggestions to clarify and strengthen working relationships between women. Many thanks! 0 of 0 people found the following review helpful. Finally some clarity By Irmtraud Litwin has tremendous insight into women's experiences, and makes sense of so much I have lived through (and been infuriated by some of it.) Her research is impressive and she is not just writing her opinion - valuable as that would be. She has conducted extensive research and has the data, and the stories, to illustrate her points. She also gives some really excellent suggestions about how to establish fundamentally stronger and clearer relationships with other women, and with men, at work. The book is imminently readable - although scholarly, it is no bring tome. I recommend it highly.

Dr. Anne Litwin's research into women's relationships and communication at work reveals startling paradoxes. In *New Rules for Women*, she exposes key sources of confusion and misunderstanding between women colleagues and offers powerful tools for preventing and resolving conflict that result in better relationships, as well as increased productivity and retention. "This practical book is filled with tips, tools, exercises, and worksheets; has the potential to free us from negative stereotypes while helping us reclaim parts of our experience in the workplace that have been misunderstood and devalued." —Joyce K. Fletcher, Distinguished Scholar, Center for Gender in Organizations, Simmons School of Management, and author of *Disappearing Acts: Gender, Power, and Relational Practice at Work* "A phenomenal book for all women at all levels of any organization. It reads very easily and has practical next-step instructions. I regret that it was not available to me during my professional career in healthcare. I highly recommend it to managers and staff." —Joanne K. Carr, retired Associate Medical Center Director/Nurse Executive "With practical advice in every chapter, I see new ways to attract and retain women, value the strengths that women bring, and unleash their full potential to speed a company toward its goals. Nothing could be more important." —Deborah Rieman, Executive Chairman, Metamarkets "Anne Litwin asks brave questions about the ways in which women's unspoken assumptions about their female colleagues and bosses can undermine their overall effectiveness and performance. With fascinating research, an engaging style, and practical wisdom, this is a superb read for anyone interested in gender equity in the workplace." —Michele Tracy Berger, Associate Professor, Department of Women's and Gender Studies, University of North Carolina at Chapel Hill
