From Routledge : **News Networks in Seventeenth Century Britain and Europe** before purchasing it in order to gauge whether or not it would be worth my time, and all praised News Networks in Seventeenth Century Britain and Europe:

Examining new research, this excellent volume presents a series of case-studies exemplifying the new newspaper history. Using cross-cultural comparisons, Joad Raymond establishes an agenda for answering crucial questions central to the future histories of the political and literary culture of early-modern Britain: * What is the relationship between the circulation of news in Britain and communication networks elsewhere in Europe? * Was the British

development of the media unique? * What are the specific rhetorical properties of news-communication in seventeenth-century Britain? * What was the relationship between commerce and politics?* How do local exchanges of news relate to national practices and institutions?nbsp;Previously published as a special issue of the journal *Media History*, this book isnbsp;compulsory reading for researchers and students of European history and media studies alike.nbsp;
