5 of 5 people found the following review helpful. This book is for young women and men...By Love to ReadThis book would be a good reference for high school aged young women and men who are trying to consider what career to go into. As for an adult who wants to know other career options available in the beauty or fashion industry, outside of "wig stylist", "manicurist" or "shampoo girl" this book is not for you.I was expecting more of an inside view of various careers in the beauty and fashion industry. Careers outside of the norm, like maybe "Jewelry Buyer", "Fashion Consultant" or something. This book was really of no help to me at all.

The most comprehensive career book series available, *Opportunities in . . .* explores a vast range of professions. Each book offers:

- The latest information on a field of interest
