Maybe the Best self-help/inspirational book, EVER!By Sam BarattaBlown away by this book, it is perhaps my all-time favorite self-help/entrepreneurial book and I am going to read it many times before I am through! I had to get both the audio and paperback versions to use together, and the down to earth insight has me ready to go out and tackle the world. I know Carrie caters to women entrepreneurs (and yes, I am a man), but I would have to place her right at the top of my go to inspirations Down to earth, easy to understand, easy to relate to, and all around sound advice and inspiration. Sorry ladies, but as guy I think this book and this woman, ... ROCK!37 of 38 people found the following review helpful. A book with practical action steps you can doBy Cassandra D. HerbertI appreciate Carrie Green and her teachings, but initially I was hesitant to purchase this book. I thought to myself do I really need another book with more information on how to be a successful entrepreneur. Now don't get me wrong I can be an information junkie, but sometimes that's all it is information without practical instruction. Well I gave in and decided to purchase this book and I am very glad I did. First of all Carrie infuses her story throughout the book, which makes it very relatable. The chapters are short and to the point and have practical action steps for you to take. Not only does Carrie discuss the nuts and bolts on how to start, build and grow your business she also has several chapters on mindset and self-care. Things us entrepreneurs tend to forget about. Throughout the book Carrie uses words to celebrates and encourage you. It is if she is right beside you cheering you on. Helping you to believe you can have a successful business.I highly recommend this book for all entrepreneurs no matter what stage you are in their business. It's s book I will read often.0 of 0 people found the following review helpful. Information packedBy 1987When I was ordering some books for a work project this popped up as a recommendation. I bought it and didn't think much past that. I read a lot of books on business and women in business. This one is the real deal. It is not filled with fluff and false hope. It is filled with great tips and information packed. She is practical, truthful and gave me so many great useful tips for my next project. If you are in business and struggling, get this book. If you are thinking of starting a business and are afraid, get this book. She covers it all.My only complaint. The author used a link shortener to link her resources she offers and that link is no longer available. So, I have not been able to find those yet.

More and more women are starting to feel like there are so many opportunities out there to turn their ideas into a reality, build a successful business and do what they love. The problem is that they don't really know how to go about it, and so they set off on their entrepreneurial journey and quickly feel out of their depth, overwhelmed, confused and like they're crazy for even thinking that they could do it. The purpose of this book is to inspire and empower these women to take back control of their mind, their ideas and businesses, and to provide strategies for them to make it happen. This book is full of personal stories, tips and exercises to inspire you and get you in to action. Honest, realistic and practical, She Means Business speaks to today's creative, ambitious and talented generation of female entrepreneurs, as well as those that wish to join their ranks by following their dreams.

About the AuthorCarrie Green is a female entrepreneur who started her first online business at the age of 20, and within a few years grew her business to global level. In 2011, after feeling isolated running her business, Carrie started the Female Entrepreneur Association ndash; an online platform now counting 270,000 members, which inspires and empowers women from around the world to build successful businesses through videos, classes, and an online community. Carrie has been recognized as an entrepreneurial ldquo;rising starrdquo; under the age of 30, and was awarded Entrepreneursrsquo; Champion of the Year in 2014 at the Great British Entrepreneur Awards.
