Tracey Edwards : Shopping for Shares: The Everyday Woman's Guide to Profiting from the Australian Stock Market before purchasing it in order to gauge whether or not it would be worth my time, and all praised Shopping for Shares: The Everyday Woman's Guide to Profiting from the Australian Stock Market:

1 of 1 people found the following review helpful. Perfect bookBy amchampIf you are interested at all in investing, and you should be, you should read this book. It is easy to follow, and very well written. It is written for women in

Australia. I'm in the US, and I still found it very helpful, and I think that any man would find value in it as well. 0 of 2 people found the following review helpful. Don't waste your money...I wish I hadn't. By Kazcar. A disappointing book. Very basic and contains very little useful information, you might find it helpful if you are completely new to trading, although there are much better share market books available. 1 of 2 people found the following review helpful. This book is a great starting point that sticks into the beginning foundation of a great understanding about the stock market. By Kelly. It's been over a year since I first picked this up and it's crazy where I have come from then in my knowledge and understanding about the stock market. Never would have happened without this author's constant objective to create a great structure for beginner's to take off and thrive.

Have you ever thought about investing in the stock market but weren't sure where to start or what to buy? Share investing is easier than you think! Women are becoming increasingly financially savvy. They want to improve their financial future and are looking to the stock market to help them achieve their goals. Tracey Edwards is one of these savvy investors. In this completely revised edition of the best-selling *Shopping for Shares*, she let you in on her investing secrets and step-by-step plan for researching and selecting the right companies at the right time so that you too can profit from the stock market. Written in a no-nonsense, conversational style *Shopping for Shares* will show you: how much money you need to start investing; it's less than you think the psychology of making your first trade; it doesn't have to be scary 'rules' for trading in the short term or investing for the long term the best times to buy and sell what you should do when the market takes a downward turn how you can still invest if you don't have a lot of time; a.k.a. the 'lazy girl's guide to investing'.
