John R. Helliwell : Skills for a Scientific Life before purchasing it in order to gauge whether or not it would be worth my time, and all praised Skills for a Scientific Life:

Being, or wanting to become, a scientist requires academic training in the science subjects. To succeed as a research scientist and educator requires specific as well as general skills. Skills for a Scientific Life provides insight into how to be successful. This career book is intended for potential entrants, early career and mid-career scientists for a wide

range of science disciplines.
