**Gary A. Tobin : Social Planning and Human Service Delivery in the Voluntary Sector (Studies in Social Welfare Policies and Programs)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Social Planning and Human Service Delivery in the Voluntary Sector (Studies in Social Welfare Policies

and Programs):

"A thorough and timely treatment of this important component of the delivery of human services--the voluntary sector. The contributors are knowledgeable and recognized leaders in their respective areas. Long-range planning and the effective use of volunteers are reflected throughout the collection, which is organized in two parts. Part 1 describes the structure of the voluntary sector, and includes chapters on the historical role of the voluntary sector in the US; an exploration of basic issues in the urban voluntary sector; religious groups and institutions; serving the needs of children; politics of the voluntary sector; comparison between public and voluntary sectors, and the role of city government. Part 2 treats planning in the voluntary sector, and discusses ethics in planning; needs identification; strategic planning; the relationship of professional staff to lay leaders; and how to attract volunteers.... Useful for human service practitioners, administrators, and students, upper-division undergraduate level and above."-Choice?A thorough and timely treatment of this important component of the delivery of human services--the voluntary sector.
