Achilleas Megas : Soviet Foreign Policy Towards East Germany (Contributions to Political Science) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Soviet Foreign Policy Towards East Germany (Contributions to Political Science):

This book examines Soviet Foreign Policy towards East Germany in the late 1980s. By focusing on the complex

interaction between domestic political thought and developments in the international system, the author illustrates the hierarchical relationship between the GDR and the USSR and offers different perspectives for understanding Soviet foreign policy. The book demonstrates that shifts in Soviet policy towards the GDR stemmed, on the one hand, from the international level, in that Soviet security was legitimated by the existence of two full-fledged German states, and, on the other, may be best explained in terms of ideas and Gorbachev's new political philosophy.

From the Back Cover This book examines Soviet Foreign Policy towards East Germany in the late 1980s. By focusing on the complex interaction between domestic political thought and developments in the international system, the author illustrates the hierarchical relationship between the GDR and the USSR and offers different perspectives for understanding Soviet foreign policy. The book demonstrates that shifts in Soviet policy towards the GDR stemmed, on the one hand, from the international level, in that Soviet security was legitimated by the existence of two full-fledged German states, and, on the other, may be best explained in terms of ideas and Gorbachev's new political philosophy.
