Marcia Stigum, Anthony Crescenzi : Stigum's Money Market, 4E (Professional Finance Investment) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Stigum's Money Market, 4E (Professional Finance Investment):

A lot of financial jargon used which the author does explain but is a difficult read for those with some knowledge of financial markets, let alone a novice. A book everyone should read but probably not your first financial book. 1 of 1 people found the following review helpful. Five Stars By Victor Amazing 3 of 6 people found the following review helpful. Great book! cheap publisher? the binding glue stinks BAD By Hazard The book contents are great, but this seems to be a cheap printing. My god, the binding glue smells simply awful! I have to put the book down sometimes to get away from the smell! And the paper is whisper thin. But aside from the publisher, the content is excellent. In combination with Harris' Trading and Exchanges, you'll know quite a bit more about financial

markets as they are in reality, not in some finance egghead's dream world.
