**Minglu Chen : Tiger Girls: Women and Enterprise in the People's Republic of China (Routledge Studies on China in Transition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tiger Girls: Women and Enterprise in the People's Republic of China (Routledge Studies on China in Transition):

The existing scholarship on women in China suggests that gender inequality still exists against the background of the country's reform and opening in recent years. However, the situation of women in enterprise ownership and leadership seems to indicate that despite such notions of disadvantage amongst women, some of them are playing a more active and significant role in China's economic development. Based on a series of interviews with female enterprise owners, wives of enterprise owners and women managers conducted in diverse locations in three different provinces of China, *Tiger Girls* examines the deeper realities of women entrepreneurs in China, and by extension the role of leading women in the workforce. By analyzing information on these women's personal experiences, careers and families, this book investigates their status at work and at home, as well as their connections with local politics. The research results suggest that although traces of gender inequality can still be found in these women's lives, they appear to be actively engaged in the business establishment and operation and gradually casting off the leash of domestic responsibilities. This book will be of interest to students and scholars of Chinese Studies, Chinese Business, Chinese Economics and Asian Studies. Minglu Chen is ARC Postdoctoral Fellow in the Department of Government and International Relations at Sydney University, Australia.

"All in all, the book succeeds in illustrating the importance of localities in discussing social change and gender inequality in contemporary China." Shigeto Sonoda, The University of Tokyo
