**Oliver Velez : Tools and Tactics for the Master DayTrader: Battle-Tested Techniques for Day, Swing, and Position Traders** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tools and Tactics for the Master DayTrader: Battle-Tested Techniques for Day, Swing, and Position Traders:

0 of 0 people found the following review helpful. Motivational, technical, and longBy SeanThis book is full of motivation and you get the feeling that you really can do this. It is also full of great technical content, something I like to read. This is a great book for someone who read a beginner's book and wants more depth but is not yet advanced. There are great examples of setups and strategy. But it was long and the motivation got a bit old after a while.0 of 0 people found the following review helpful. Loved it.By FCN, Inc.Loved it. really plays with your mind at times. I have purchased 5 more copies so far for family and they all really appreciate the book and the author's

delivery. Thanks! 2 of 2 people found the following review helpful. Ignore the harsh reviews by Luke. The book covers some important aspects of trading such as: psychology, discipline, strategy, risk, candle stick charting, different perspectives of the market. Some of the one star reviews are from claimed professional traders, if a professional trader reads this book he will not find new information. This book is for those who are making the transgression from a beginner to an intermediate level trader.

Over 30,000 online investors daily flock to [pristine.com](http://pristine.com), the top-rated website run by day trading legends Oliver Velez and Greg Capra, for up-to-the-minute strategies and market commentaries.
