From INTERNATIONAL MONETARY FUND : *Toward a Monetary Union in the East African Community: Asymmetric Shocks, Exchange Rates, and Risk-Sharing Mechanisms* (African Departmental Paper) before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Toward a Monetary Union in the East African Community: Asymmetric Shocks, Exchange Rates, and Risk-Sharing Mechanisms* (African Departmental Paper):

This paper examines how susceptible East African Community (EAC) economies are to asymmetric shocks, assesses

the value of the exchange rate as a shock absorber for these countries, and reviews adjustment mechanisms that would help ensure a successful experience under a common currency. The report draws on analysis of recent experiences and examines likely future changes in the EAC economies.
