From University of Chicago Press : Trade with Japan: Has the Door Opened Wider? (National Bureau of Economic Research Project Report) before purchasing it in order to gage whether or not it would be worth my time, and all praised Trade with Japan: Has the Door Opened Wider? (National Bureau of Economic Research Project Report):

The realities of Japanese-U.S. trade and investment relations are clouded by mistrust, misinformation, and myth. In what way is the Japanese economic system different, and is it to be emulated or challenged? The contributors, from both the United States and Japan, explore Japanese trade patterns, market structure and trade, financial markets, and industrial and trade policy. Offering analysis of the issues, Trade with Japan is a valuable resource for economists, policymakers, and the business community.

About the Author Paul Krugman won the 2008 Nobel Memorial Prize in Economic Sciences.
