From Routledge : Transforming Corporate Governance in East Asia before purchasing it in order to gage whether or not it would be worth my time, and all praised Transforming Corporate Governance in East Asia:

Over the past ten years, the corporate governance environment in East Asia has undergone a significant transformation. The Asian Financial crisis, together with Japan's long economic malaise, undermined confidence in the corporate structures, governance practices, and regulatory oversight of firms in the region. Since that time, each of the countries in the region has been a hotbed of legislative, judicial, and market activity in the realm of corporate governance. This book takes stock of the most important recent corporate governance changes in the region and the challenges still to be overcome. The contributors pursue this objective, not by describing laundry lists of legal reforms and problems, but by focused in-depth legal analysis on specific issues facing the separate systems in the wake of -

sometimes in spite of - the voluminous reforms and market changes of the past decade. Written by the leading corporate law scholars and policy advisors in East Asia and some of the most renowned scholars of comparative corporate governance in the United States, the papers are methodologically united in their careful attention to the impact, and limitations, of legal reforms on corporate governance in East Asia today.

About the Author Curtis Milhaupt is the Fuyo Professor of Law and Director of the Center for Japanese Legal Studies at Columbia Law School. Hideki Kanda is Professor of Law at the University of Tokyo and Director of its Center on Excellence in Business Law. Hwa-Jin Kim is Associate Professor of Law and Business at Seoul National University College of Law.
