**John of Caroline Taylor : Tyranny Unmasked** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tyranny Unmasked:

2 of 2 people found the following review helpful. That which destroys our country is what we consider normal and what our politicians give us more and more of every election. By Soothsayer Sobering to think that John Taylor railed against the evil of corporate welfare as early as 1821 but we paid no heed to him. Equally concerning is that what we except as normal now or the way our country does business is exactly what has destroyed us. It is one of the earliest of the great lies in this country, the tarriff/corporate welfare. 1 of 2 people found the following review helpful. Five

StarsBy Chrisgreat book but its a tough read0 of 1 people found the following review helpful. Five StarsBy CustomerAs advertised and on time!

John Taylor of Caroline (1753ndash;1824) was one of the foremost philosophers of the States' rights Jeffersonians of the early national period. In keeping with his lifelong mission as a "minority man," John Taylor wrote *Tyranny Unmasked* not only to assault the protective tariff and the mercantilist policies of the times but also "to examine general principles in relation to commerce, political economy, and a free government." Originally published in 1822, it is the only major work of Taylor's that has never before been reprinted.As an early discussion of the principles of governmental power and their relationship to political economy and liberty, *Tyranny Unmasked* is an important primary source in the study of American history and political thought.F. Thornton Miller is Professor of History at Southwest Missouri State University.
