Ducker : Virtual Freedom: How to Work with Virtual Staff to Buy More Time, Become More Productive, and Build Your Dream Business before purchasing it in order to gage whether or not it would be worth my time, and all praised Virtual Freedom: How to Work with Virtual Staff to Buy More Time, Become More Productive, and Build Your Dream Business:

34 of 35 people found the following review helpful. If you own a business you NEED to read this book (even if you

think it doesn't apply)By Rivka KawanoThis book is THE authoritative guide to finding and managing a virtual staff. If you have never done it before Chris Ducker will walk you through step by step - it is easier than you think! If you are like I was for so long and putting off the idea of building a virtual team let this be your wake up call.What makes this book extra special is not only is it a good guide for someone starting out, but even for those who have been managing some or all of their team online Virtual Freedom will show you how to take that to the next level. There were several tips I picked up even after several months of working with a virtual assistant.The format of this book is super simple to read with bullet points and headings. And examples! Every section has an example of someone putting the strategies into practice.Even without a virtual team on a full time or regular basis this book will help you hire and manage for one off projects, and even improve your own productivity.The biggest surprise in the book was the final section about content creation. Not too concerned about giving yourself more free time? Then you should still hire a virtual staff so that you can have more time to create content and continue to grow. Your impact and meaning as a business should never be limited by what you alone can do.Bottom line? Go buy this book! It will change your life.2 of 2 people found the following review helpful. Great information. Well written and very helpful.By DontPushMeI waited a little while to get this book since I don't normally pay much for eBooks. But I saw it on special and grabbed it. I have absolutely no idea why this book would have anything less than 4 star reviews. The information is helpful and concise. The links to Chris's own site are worksheets or templates that you can use for your own hiring efforts. This book is certainly not an infomercial for Chris Ducker's Virtual Staff Finder service - indeed I'm going to use the tips to get better results hiring VA's than I have had in the past - and I won't be using the VSF service.I'm so thrilled to get my hands on this information all in one place.The great reviews for this book are because it is a great book. If you haven't had the success you're seeking when hiring VA's buy this book and implement the helpful information straight away.1 of 1 people found the following review helpful. Treat your VA well - and other great practical VA tips!By Scott KayI had heard of Chris and heard him interviewed previously before buying the book.I've found the book very useful, both in the practical component of what a VA can do (and considerations of getting a VA per project vs full time team member), and also with the thinking component, to design your business (or life) how you want it to be run. I think this book picks up where the 4 Hour Work Week by Tim Ferris leaves off - more practical examples of working with VAs. Love most of all that Chris encourages you to be kind to virtual assistants, which I 100% endorse - treating staff kindly means that they often will work harder for you and have less fear. Every time one of my VAs or contractors makes a mistake, almost 100% of the time it has been due to my lack of training and instruction, rather than the persons lack of hard work.

Entrepreneurs often suffer from "superhero syndrome"; the misconception that to be successful, they must do everything themselves. Not only are they the boss, but also the salesperson, HR manager, copywriter, operations manager, online marketing guru, and so much more. It's no wonder why so many people give up the dream of starting a business; it's just too much for one person to handle.But outsourcing expert and "Virtual CEO," Chris Ducker knows how you can get the help you need with resources you can afford. Small business owners, consultants, and online entrepreneurs don't have to go it alone when they discover the power of building teams of virtual employees to help run, support, and grow their businesses.Virtual Freedom: How to Work with Virtual Staff to Buy More Time, Become More Productive, and Build Your Dream Business is the step-by-step guide every entrepreneur needs to build his or her business with the asset of working with virtual employees. Focusing on business growth, Ducker explains every detail you need to grasp, from figuring out which jobs you should outsource to finding, hiring, training, motivating, and managing virtual assistants.With additional tactics and online resources, Virtual Freedom is the ultimate resource of the knowledge and tools necessary for building your dream business with the help of virtual staff.

Think about the most useful book you've ever read. It will now become the second most useful. This is the field guide for building a team, outsourcing, and taking back control of your life."Jay Baer, New York Times bestselling author of YoutilityChris Ducker explains exactly how to get more done in less timeand, as a bonus, get back the life you gave up when you decided to go into business for yourself. Virtual assistants are the key, and Virtual Freedom gives you everything you need to know."Michael Hyatt, New York Times bestselling author of PlatformChris Ducker passionately teaches freedom. His manifesto is a wake-up call for all entrepreneurs seeking to take back more of their time in business and life."Michael Covel, bestselling author of Trend FollowingSet your ideas free, and you'll think bigger. Set your entire work system free, and you'll grow bigger. Chris Ducker is on to something here. Get in fast!"Chris Brogan, New York Times bestselling author of Trust AgentsWho would you rather trust to learn about building a virtual team, to help grow your business? Someone who 'talks' about outsourcing, or someone who LIVES it? Chris Ducker lives it everyday - and this book proves it!"Derek Halpern, founder of SocialTriggers.comCountless business owners are getting bogged down dealing with mundane tasks. Chris Ducker, has the book you NEED to read. He takes the fear out of virtualizing your business and shows you how to live your life, while your business works for YOU!"Peter Shankman, bestselling author of Nice Companies Finish
