Delightful narrative, poignant adviceBy Geneva LakeJenn is a heartwarming, beautiful writer whose words and stories set the stage for a welcome and engaged read addressing the trials and tribulations of someone whose endless ambition pulled her up through the ranks of one of the most

Not like other career books By anonymous A career guide that cuts through the BS and actually, finally, admits that work is emotional and personal. Jennifer's insight into the world of media is fascinating, but her trajectory and her advice is applicable to any young person in any industry. Funny, smart, interesting. 0 of 0 people found the following review helpful. Four Stars By Steve Skalski A lot of good practical information as one progresses through one's career.

An honest, sharp-witted, practical guide to help you get and keep the job you want—;from an outsider who's been there and done it, a woman who went from being a broke, divorced, college dropout to running some of the biggest websites in the world. Jennifer Romolini started her career as an awkward twenty-seven-year-old misfit, navigated her way through New York media and became a boss—;an editor-in-chief, an editorial director, and a vice president—;all within little more than a decade. Her book, *Weird In A World That's Not*, asserts that being outside-the-norm and achieving real, high-level success are not mutually exclusive, even if the perception of the business world often seems otherwise, even if it seems like only office-politicking extroverts are set up for reward. Part career memoir, part real-world guide, *Weird in a World That's Not* offers relatable advice on how to achieve your dreams, even when the odds seem stacked against you. Romolini helps you face down your fears, find a career that's right for you, and get and keep a job. She tackles practical issues and offers empathetic, clear-cut answers to important questions: How do I navigate the awkwardness of networking? How do I deal with intense office politics? How do I leave my crappy job? How do I learn how to be a boss not just a #boss? And, most importantly: How do I do all this and stay true to who I really am? Authentic, funny, and moving, *Weird in a World That's Not* will help you tap into your inner tenacity and find your path, no matter how offbeat you are.

“Part career guide, part cautionary tale; part memoir, part motivation. With the candor and charm of a big sister/best friend, Jennifer Romolini has magically written a book as funny as it is wise.” (Rumaan Alam, author of *Rich Pretty*) Jennifer Romolini has written a career guide for actual humans. Humans who make mistakes, have feelings, and are learning every day. Her advice is practical and no-nonsense while still being wonderfully empathetic, warm and funny. I would tell you this book is perfect for a woman just starting her career, but the honest truth is that even though I've been a manager for several years, I learned so much from Jenn about how to lead: with high expectations and compassion.” (Jessica Grose, editor in chief of *Lenny* and author of *Soulmates* and *Sad Desk Salad*) From the Back Cover An honest, sharp-witted, practical guide to help you get the job you want and keep it—;from an outsider who has been there and done that; a woman who went from being a broke, divorced college dropout to running some of the biggest websites in the world Jennifer Romolini started her career as an awkward twenty-seven-year-old misfit but navigated her way through New York media and became a boss—;an editor in chief, an editorial director, and a vice president—;in little more than a decade.
